Dear Module III Applicant,

Thank you for your interest in the Sacramento Regional Public Safety Training Center's (SRPSTC) Basic Law Enforcement Academy. Our Academy program is presented in the Modular format and certified by the California Commission on Peace Officer Standards and Training (POST). The Modular format consists of three distinct courses which, when completed, comprise the Regular Basic Academy. The three courses are:

PSTC 1502: Basic Academy Module III: (191) hours of training

PSTC 1503: Basic Academy Module II: (261) hours of training

PSTC 1504: Basic Academy Module I: (449.5) hours of training (*currently not offering Module I at this time.*)

Upon completion of all three classes, the student will have fulfilled the POST training requirements needed to apply for employment as a full-time California Peace Officer or Level I Reserve Officer (with participating California law enforcement agencies).

Course Description

This course satisfies the POST Level III Reserve Peace Officer training requirements. It is the first of a three-part series of courses which prepares students for entry-level employment as reserve or regular full-time California peace officers. Topics include leadership, professionalism, and ethics; policing in the community; introduction to criminal law; investigative report writing; use of force and de-escalation; traffic enforcement; crimes scenes and forensics; arrest and control; firearms; and cultural diversity and discrimination. Pass/No Pass only.

Student Learning Objectives

Upon completion of this course, the student will be able to:

- discuss the Law Enforcement Code of Ethics and the relationship between public trust and a peace officer's ability to perform their job.
- explain the constitutional rights of all individuals within the United States, regardless of citizenship status, and the role of the criminal justice system in protecting those rights.
- describe personal, professional, and organizational benefits of valuing diversity within the community and law enforcement organizations.
- identify current and emerging issues that can impact the delivery of services by peace officers.
- describe the relationship between constitutional, statutory, and case law.
- discuss amendments to the U.S. Constitution and sections of the California Constitution related to the authority, liability, and responsibility of peace officers in making arrests.
- describe the peace officer's authority, responsibility, and potential for liability in the areas of search and seizure law and the protections provided by constitutional, statutory, and case law against unreasonable searches and seizures.

- examine the consequences of a peace officer's use of unreasonable force and an officer's legal and ethical responsibilities to intercede if the force being used by another peace officer is inappropriate or unlawful.
- explain the principles of de-escalation and how it can enhance contacts with the public, result in improved decision-making, and reduce situational intensity.
- discuss the legal responsibilities of a peace officer for the care and custody of an arrested person, from the time of arrest to the transfer of responsibility to a local detention facility.
- specify the requirements for authorized release of Criminal Offender Record Information (CORI) based on right-to-know and need-to-know.
- identify the elements and classifications of specified crimes.
- describe the peace officer's role and responsibilities in ensuring the admissibility of evidence.
- demonstrate competency in performing Cardiopulmonary Resuscitation (CPR) for adults, children, and infants following current American Heart Association Guidelines for CPR and Emergency Cardiovascular Care (ECCP) at the healthcare provider level.
- demonstrate competency in using effective hand signals, flashlights, and other warning devices to control traffic.
- demonstrate competency in performing slow speed precision driving maneuvers in a law enforcement vehicle.
- demonstrate competency in conducting visual, cursory, and full-body searches.
- demonstrate competency in handgun retention techniques.
- demonstrate competency in the use of impact weapons.
- demonstrate competency in firearms manipulation and shooting skills.

As part of the application process, you are required to request a fingerprint clearance letter from the California Department of Justice (DOJ). DOJ processing fees for non-sponsored candidates are determined by each processing center. For more information go to:

<https://oag.ca.gov/fingerprints/locations>

If you are accepted into the Academy but fail to submit your DOJ Clearance Letter **prior to the first day of the Academy** you will not be permitted to attend the Academy.

SRPSTC Medical Clearance Form

Each module in the Academy program consists of topics in which recruits must demonstrate physical ability to complete job-related performance tasks. These topics include the Academy's Physical Conditioning Program, Arrest and Control training, and Vehicle Operations training. Applicants must submit the SRPSTC Medical Clearance Form, signed by their physician, to indicate that they are medically cleared to participate in these activities. Please see the form for specific physical tasks for which your physician will need to evaluate your readiness to participate in training.

About the Physical Conditioning Program

POST has responsibility for certifying all basic training academies in California. Participation in the Basic Academy Physical Conditioning Program and the successful completion of job-related tests are requirements of the California Commission on Peace Officer Standards and Training (POST).

The Academy's Physical Conditioning Program is designed to develop in you an enhanced level of physical fitness in a manner that will both prepare you to perform physically demanding tasks of the law enforcement profession and instill desire to maintain a high level of fitness throughout your career. To this end, the objectives of the program are to:

- Prepare you to meet minimum physical job task performance standards
- *Sensitize* and *educate* you on the importance of maintaining a lifelong health related personal physical fitness program
- Provide positive reinforcement and support for maintaining high fitness levels and personal health-related physical fitness programs.

These objectives are achieved by means of a three-fold educational process. First, you will be introduced to the goals and objectives of the physical program, which includes individual assessment and instruction on the principles of physical conditioning. Second, you will participate in a series of conditioning sessions which systematically embrace a wide variety of physical exercise. These activities include neuro-muscular-skeletal development through strength and flexibility exercises, as well as cardio-respiratory enhancement through various aerobic-type involvements. The progression of exercise will be dictated by your "entry fitness level" and the subsequent improvement of your physical condition throughout the training.

Third, you will receive numerous hours of classroom instruction on the subjects of: physical fitness as a lifetime pursuit, low back care, nutrition, overweight/obesity, substance abuse, stress management, and self-evaluation.

The actual physical conditioning phase of the program is organized into 60-minute sessions. In most instances, the program will consist of three 60-minute sessions per week. Each is designed to address muscular strength, muscular endurance, cardiovascular endurance, and flexibility. The relative emphasis given to each of these types of conditioning varies from session to session. All exercises within an exercise session are designed to maximize the development of those physical abilities needed to function as a patrol officer. A detailed physiological analysis was conducted by physiologists to identify/develop the specific exercises within each session. The analysis was conducted on actual patrol officer physical job task information that was collected from officers in over 100 police and sheriffs' departments statewide. Thus, great care was taken to ensure that the content of the conditioning program is highly job-related.

Participation in the physical fitness portion of the Academy is mandatory and failure to participate in the minimum number of training sessions will disqualify you from the Academy.

Shoes

Prior to entering the Academy, **you are required to purchase a good pair of running shoes.** The type and proper fit of shoes is important for any activity program. Programs such as this, which involve a lot of running and jogging, require special shoes which have been designed specifically for these activities.

- These shoes should not fit tightly and should have good support at the arch and heel.
- Ripple, crepe, or waffle shoes are excellent for use on hard surfaces.
- It is important to remember that good shoes and socks are the best prevention against blisters, soreness, and aching of the feet, ankles, and knees.
- **The use of any other type of shoe is strictly prohibited during any physical fitness activity, tests, or practice tests.**

Mat Shoes

You are required to purchase a pair of mat shoes for use on the mats located in the large and small mat rooms. These are required because of Cross Contamination Protocols.

Striking Gloves

You are required to purchase striking gloves used in Arrest Control & Baton Training

The POST Work Sample Test Battery (WSTB)

At the conclusion of the conditioning program in Module I, you must successfully complete a battery of job-related tests in order to graduate from the Academy. The tests are designed to simulate actual job tasks that are frequently performed by the typical California peace officer.

The test battery that you will take will consist of a series of Work Samples that must be performed within a specified time. They consist of

- running 5 yards up to and climbing over a 6-foot solid wall then running 25 yards to the finish line.
- running up to and climbing over a chain link fence then running 25 yards to the finish line.
- dragging a life-like 165 lbs. mannequin for 32 feet
- running a 99-yard pursuit Obstacle/Agility Run course consisting of 5 sharp turns and minor obstacles (saw horse) that must be jumped or vaulted; and
- running a 500-yard pursuit course with no obstacles.

The passing scores required on such tests have been established so that they reflect standards that are reasonable and consistent with normal expectations of acceptable proficiency. They are therefore **not** tests of athletic prowess but rather tests that measure one's ability to do the job.

During the first module III, you will be introduced to the above physical fitness testing methods and techniques to provide you ample time to prepare for a final test in later modules.
