I thank God, who has allowed me to live and never give up on my goal. To my parents Roman and Baudelia who did not study but allowed me to do so. To my children. Yahir, you are very intelligent and I hope you become a psychologist and are filled with God. Montzce, you are a good actress, writer and mom, never stop studying. Marielle, you are the promise of success and goodness in this world. To my sisters Angelica and Yolanda for welcoming us into their home when we had nowhere to go in this country. To my brother Hector (Pipo). You didn't have the opportunity to study or be here today, because you were murdered at 17 years old. To my teachers Anita, Randy and Caroline who were my guardian angels at school. To me, of course, for going against the current and finishing this part of my studies. Again, thank God.
